Our check-in system

Welcome to St John of God Subiaco Hospital. To help keep our hospital community safe, we have introduced a new check-in system.

All visitors will be asked to check-in prior to entry. To save time and avoid queuing, we recommend you pre-register prior to arrival using the steps below.

If you have already pre-registered, please skip ahead to the 'Check-in' section.

How to pre-register

1. Visit the following website: **bit.ly/SubiacoCheckin** or scan the QR code.
2. Complete the questions and upload your vaccination evidence. This will generate a 'FastPass' QR code, which can be saved as an image on your device or printed.
3. You will need to scan your 'FastPass' or enter your registered phone number when you arrive as outlined below.

How to check-in on arrival

1. At the check-in kiosk, scan your 'FastPass' or enter your phone number.
2. Follow the prompts. If asked, provide your vaccination evidence and complete the Health Declaration.
3. Collect your badge and you are ready to enter.

Any visitors who are unable to pre-register can complete the full registration and check-in at an entry kiosk on arrival.

We are here to assist, and keep you safe. Thank you for your cooperation.
